## NOTICE

**TO:** Illinois Contractors, Construction Workers, and Supervisors  
**FROM:** Illinois Department of Public Health, Division of Environmental Health,  
Lead Program and CLEAR-Win Program  
**DATE:** 04/03/2023  
**SUBJECT:** Lead Contractor, Supervisor, and Worker Licensing

---

The Illinois Department of Public Health (IDPH) would like to extend an invitation to become an IDPH licensed lead contractor, supervisor, and/or worker. As a result of the commencement of the CLEAR-Win Program, lead abatement projects are available in your area. We need your help to abate lead hazards throughout Illinois.

The IDPH Lead Program and CLEAR-Win Program are committed to protecting Illinois children from lead exposure. Lead poisoning is too much lead in the body and is especially harmful to children younger than 6 years of age. Even small amounts of lead can harm a child's brain and nervous system. It can also cause developmental delay, learning difficulties, and behavior problems. A child may have lead poisoning and not feel sick. A child may experience stomachaches, headaches, exhibit decreased appetite, hyperactivity, sleeping problems, or irritability. Very high amounts of lead can cause kidney damage, seizures, coma, or even death.

Help us reach our goals to increase lead-safe housing, eliminate the sources of lead hazards in homes, and reduce childhood lead exposure. Contact us for information about qualifications, training, applications, fees, and licensing at:
