**Cindy Brookes**, Senior Rural Development Specialist is located near Tiffin, Ohio. She has been in her current position since 2017, leading the Great Lakes Community Action (GLCAP)/Rural Community Assistance Program (RCAP) region's private well assessment program. In addition, she administers Household Sewage Treatment Systems funding programs for 5 Ohio Health Departments and assists other small communities with project development and funding. Cindy earned her Bachelor of Science in Agriculture Education and Agronomy from The Ohio State University.

**Brett D. Wieber**, Esq., Sales Manager, Norweco, Inc. Brett has worked at Norweco for several years, and during that time he has given numerous presentations regarding the installation and service of the Norweco Singulair and Singulair Green technology. In addition to managing Norweco's sales team, Brett covers several states and Canadian provinces as part of his duties, which affords him the opportunity to provide training on Norweco systems to service providers and regulators throughout the United States and Canada. Brett has a Bachelor's Degree in Business Administration from Bowling Green State University and a Juris Doctorate from the University Of Akron School Of Law, and is an attorney licensed to practice law in the state of Ohio.

**Don Carabin**, National Sales Representative, Norweco, Inc. Don has worked at Norweco for several years, and during that time he has given numerous presentations regarding the installation and service of the Norweco Singulair and Singulair Green technology. Indiana is one of several states that Don covers on Norweco's behalf, and in that capacity he often provides training to installers, service providers and regulators. Don is involved in various non-profit organizations that focus on residential wastewater treatment, and currently serves on the Board of Directors of the Ohio Onsite Wastewater Association (OOWA). Don has a Bachelor's Degree in Communications from the University of Toledo.

**Guy Sprouls**, MS, LEHP

Dairy Program Manager, IDPH

Over 25 years in Public Health at the local and state levels specializing in food safety and compliance.

**Armour Peterson**, MS, LEHP

Dairy Quality Specialist, IDPH

Over 25 years in Public Health at the local and state levels involved in all aspects of the environmental programs and the food and dairy programs.

**Darrah Dunlap**, As the Food Program Manager for IDPH's Division of Environmental Health, Darrah Dunlap leads the retail and manufactured food protection programs in Illinois. Darrah joined IDPH in 2017. In her previous role, she was responsible for leading environmental health investigations in response to cases of legionellosis. Prior to joining IDPH, Darrah started her career in public health as an Environmental Health Inspector at Sangamon County Health Department where she learned the importance of local food protection programs. Drawing on her experience as an inspector and investigator, Darrah emphasizes the importance of supporting and strengthening local environmental health programs and building strong partnerships in public health. She holds an MPH with a focus in Environmental Health and a BS in Biology with a concentration in Microbiology.

**Steven Honn** is an Environmental Health Specialist 3 for IDPH's Food, Dairies and Devices Section. Steven joined IDPH in 2017 as a manufactured food and dairy inspector in the Peoria region. In 2019 Steven transferred to the manufactured food program in the central office. Prior to joining IDPH, Steven worked in the private sector for 16 years as a licensed asbestos and lead-based paint building inspector and project manager. He holds an MA in Environmental Studies with a concentration in Environmental Planning and Management and a BS in Environmental Biology with minors in Chemistry and Botany.

**Sander Robinson** is an Environmental Health Specialist and Shellfish Officer with the Food, Dairy and Devices Section, Environmental Health Division, IDPH. He began working with the department in 2015. Ever since he moved to IL in 2012, he has also held various adjunct faculty positions at colleges in northeast IL teaching environmental science. His prior career has involved over 16 years of Great Lakes research and science communication while working at the University of Michigan in collaboration with NOAA's Great Lakes Environmental Research Lab. He holds a MS in Environmental Health Sciences from the University of Michigan and a BS in Microbiology from Michigan State University.

**Charles W Jones**- B.S in mechanical engineering from university of Missouri –Rolla in 1986. Started with the Department in 1989 in the Edwardsville Regional Office (now Metro East Office) in the swimming facilities, recreational area, mobile home park, safe drinking water and water well programs. Professional engineering license in 1993. Transferred to Springfield Central office in 2015 in the Swimming Facilities Program. Promoted to Private Water Well and Closed Loop Water Well program manager March 2018.
